TABLE 11

AIU, during the validation of credits, gives:

Bachelors 80 maximum + 40 to 50 acquired in *AIU* =120 to 130

Masters the total of credits is from 30 to 50 more from the validation of your Bachelors

Doctorate the total of credits is 60; nevertheless in some cases of candidates of advanced level, credits with previous approval from the academic committee could be 50 plus the validation of their previous studies.

In *AIU*, the 1st Phase has between 1 and 2 credits per assignments already established by this institution. In the 2nd Phase, assignments have between 1 and 3 credits taking into account the criterion of the adviser.

The evaluations taken in a table from 1 to the 100 are:

Grade	Points of Qualification	Points of Numerical	Equivalence
A	Excellent	4.00	90-100
B	Good average	3.00	80-89
C	Satisfactory average	2.00	70-79
D	Acceptable but under the standard level	1.00	60-69
F	Not approved	0.00	0-59
I	Incomplete: a temporarily given grade in case the student has not completed the requirements of the course due to a reason outside anyone's control.		
J	Exempt		
P	Approved		
T	Transferred credits (it is not included in the GPA)		
U	Audited (Without credits)		
W	Low academic		

In the case of the Bachelor, the credits are equivalent to 4,000 hours of student learning.

In the case of the Masters, they are 1,600 hours of student learning.

In the case of the Doctorate, they are 2,000 hours of student learning and other contributions.

All the data are average since with each specialty it varies. In order to know how many credits you have to-date, I suggest entering in your transcript section. In the main page of the student's electronic section that *AIU* has provided, you will find a Link called Transcripts. In the inferior right part of this transcript, you will find **TRANSCRIPT SUMMARY**, it will have the sum of TRANSFERED CREDITS along with the total of credits that you have earned thus far.

You will be able to see in this transcript: Cr. Gr. GPA,

Cr: refers to the credits that are assigned to the corresponding assignment, that is normally 1 credit which is equivalent to approximately 30 hours of theoretical-practice learning.

Gr.: refers to the grade that is assigned to the assignment in question.

GPA: refers to the result of the multiplication of the number of credits by the value of the letter assigned to the assignment.

Here you have access to electronic addresses of university corresponding to each department. We ask that you do not send communications via email to the university whenever possible; instead send all communication, questions, or academic assignments via your electronic student section.
